

BENNETT CUP TO ENGLISHMAN

WAS IN LEBLANC'S GRIP BUT LOST IN ACCIDENT.

Frenchman Had 80 Miles an Hour Speed, When His Gasoline Tank Feed Pipe Loosened.

New York.—Claude Grahame-White, flying for the Royal Aero Club of the United Kingdom, lifted the Gordon Bennett international speed trophy from the custody of America Saturday in the fastest time ever covered for the full distance of 100 kilometers, 62.14 miles, around a five-kilometer course. His average speed was a fraction better than 61 miles an hour and his fastest lap was 2 minutes 55.77 seconds. The captain of the French team, Alfred Leblanc, flying in a similar machine, a 100-horsepower Bleriot monoplane, was making each lap on an average of twenty seconds faster than Grahame-White and would have won the cup if he had not met with a disastrous accident when he had the race seemingly well in hand.

His first lap was a new world's record in itself for five kilometers, 2 minutes 45.63 seconds, but he subsequently exceeded it with a lap done in two minutes 44.32 seconds.

Leblanc's Misfortune.
Leblanc was running with the wind under full power at an estimated speed of eighty miles an hour when the feed pipe from his gasoline tank to his motor loosened under the incessant jarring of the engine and he suddenly found himself with nothing but momentum to carry him. It is a peculiarity of racing aeroplanes that they are trimmed down so fine they can not execute a volplane or glide if the engine shuts off. They must come to the earth under and even then they bump severely in landing. Leblanc was helpless and panic-stricken. He tried to lift his planes so that the last few drops of gasoline might filter down into the engine and lend him strength enough to make a landing. His steering was gone and when a puff of wind caught him he drifted sideways, still drifting at tremendous speed, and crashed head foremost into a telegraph pole.

The pole was fourteen inches thick, but he broke it in three pieces as if it had been a toothpick. The first fragment was sliced clean off twelve feet up and snapped again at the bottom of the stump. The third and topmost fragment fell over backwards and smashed down on the fragile planes. The chassis and steel shield which incloses the motor were completely crumpled, but the solid steel of the motor itself withstood the shock. Had Leblanc hit the pole in any other manner it is difficult to see how he could possibly have escaped death.

His accident was accepted on every hand with the greatest regret.

Judiciary Estimates.

Austin, Tex.—The controller prepared the estimate of the needs of the judiciary of the state for the next two fiscal years and estimates that it will take \$803,000 a year to run the judiciary, while the last appropriation bill allowed \$768,000 a year. This does not include the salaries and expenses of the higher courts.

Filed Damage Suit for \$15,000.

Flareville, Tex.—As a result of injuries alleged to have been received while working in the defendants' gin at Roth several weeks ago, George Condra, a young man Saturday filed suit, by next friend, against A. H. Poth and W. J. Bump of Poth. The amount is \$15,000.

Big Counterfeiting Haul.

Washington.—Secret Service agents at Texarkana, Ark., reported Saturday the arrest of Joseph Grindley and W. V. Slaton, in Miller county, that state, and the capture of an extensive counterfeiting plant with a large quantity of counterfeit coins.

Elgin Cotton Fire.

Elgin, Tex.—It is supposed the northbound Katy train set fire to some cotton on the platform Sunday. About 400 bales of cotton were on the platform at the time of the fire, but by the good work of the Elgin fire company only twelve bales were destroyed.

Americans Lend to China.

Peking.—An official edict Saturday authorized a proposed loan of \$50,000,000 from an American group of financiers. The bond issue will be taken at 95. They will mature forty to forty-five years after issuance and bear 5 per cent interest.

Dynamite Postoffice Safe.

Valdosta, Ga.—A dynamite explosion which wrecked the postoffice safe at Ousley, awakened the town early Sunday morning. One man reached the postoffice in time to shoot at a fleeing robber who obtained \$300 and a quantity of stamps.

STONE IN BLADDER REMOVED IN REMARKABLE WAY

A year and a half ago I was taken with a severe attack of kidney trouble that pained me to such an extent that morphine had to be given me. Was attended by a doctor who pronounced it as stone in the bladder and prescribed Lithia Water. I took Lithia Water and tablets for some time and received no relief from them. I stopped taking medicines for some time and having some Dr. Kilmer's Swamp-Root in the house, I decided to try it and felt much relieved; while taking the second bottle commenced to pass gravel in urine until I had passed in all at least a half a dozen or more and have not suffered the slightest since and in all have taken one bottle and a half and feel very grateful to Dr. Kilmer's Swamp-Root.

Yours very truly,
H. W. SPINKS,
Camp Hill, Ala.

Personally appeared before me this 16th of August, 1909, H. W. Spinks, who subscribed the above statement and made oath that same is true in substance and in fact.

Why the Boy Gave Thanks.
Alan had played the entire day with little brother without an impatient word. After saying his customary prayer that night, his mother suggested that he add: "I thank God I was not impatient with little brother today." This he did with much fervency; after which he remarked that there were some other things he would like to thank God for, and forthwith he closed his eyes and said: "I thank God I offered my candy to father before taking any myself." "I thank God I offered my candy to mother before taking any myself." "I thank God I offered my candy to little brother before taking any myself." "And I thank God there was some left."—Lippincott's.

AWFUL BURNING ITCH CURED IN A DAY

"In the middle of the night of March 30th I woke up with a burning itch in my two hands and I felt as if I could pull them apart. In the morning the itching had gone to my chest and during that day it spread all over my body. I was red and raw from the top of my head to the soles of my feet and I was in continual agony from the itching. I could neither lie down nor sit up. I happened to see about Cuticura Remedies, and I thought I would give them a trial. I took a good bath with the Cuticura Soap and used the Cuticura Ointment. I put it on from my head down to my feet and then went to bed. On the first of April I felt like a new man. The itching was almost gone. I continued with the Cuticura Soap and Cuticura Ointment and during that day the itching completely left me. Frank Gridley, 325 East 43rd Street, New York City, Apr. 27, 1909." Cuticura Remedies are sold throughout the world; Potter Drug & Chem. Corp., Sole Props, Boston, Mass.

SWELLING THE HOTEL BILL

Hotel Keeper's Method of Taxing Traveler Had at Least the Method of Novelty.

One of the things which help "well" the traveler's expenses, both in this country and abroad, is the "extra." It may or may not be charged in the bill, but it is sure to be paid for. Probably even the most generous traveler, however, will have some sympathy for the gentleman in the following story who was made to pay liberally for a certain annoying privilege.

During his stay at the hotel the weather had been very hot. "Charles," said the landlord to the clerk who was making out the bill to be presented to the departing guest, "have you noticed that the gentleman in number seven has consulted the thermometer on the piazza at least ten times every morning during his stay here?"

Charles replied that he had. "Well," said the landlord, "charge him the price of one dinner a day for the use of the thermometer."—Youth's Companion.
